

**BIRDS OF
HOT SPRINGS VILLAGE**

C = Common (expected most trips)
 F = Fairly Common
 U = Uncommon (may be difficult to find)
 R = Rare (few confirmed sightings)
 I = Wide year-to-year fluctuations

Sp = Spring (March — May)
 S = Summer (June — July)
 F = Fall (August — November)
 W = Winter (December — February)

This list began with the bird records of annual initial sightings by Lou Leonatti and others from 1991-1998. 2022 revision by C. Minson & V. Prislipsky. Thanks to all Audubon members who reported sightings.

The purpose of this check list is to provide information about the expected occurrence of specific species at various times of the year. All species listed have been reported in the Village at least once since 1991. Some of the species that are very common in some parts of the Village are rarely seen in other areas.
